NORTHWESTERN BELL TELEPHONE COMPANY

GENERAL OFFICES, TENTH & GRAND, DES MOINES, IOWA

R. J. Hopley, District Manager, Des Moines, Iowa

A. E. Little, Manager

Call "Repair Service" if your telephone is out of order.

Call "Chief Operator" to inquire about a call in the process of completion.

Call "Manager's Office" for all business transactions such as applications for service, changes in service, directory listings, directory advertising, inquiries regarding bills or charges, or to report unsatisfactory service of any kind.

HOW TO USE THE TELEPHONE

Always obtain the correct telephone number from the directory before you make a call.

If the person you wish to speak to is not listed in the directory, call "Information."

Speak slowly, clearly and directly into the telephone, with yourli ps about one inch from the mouthpiece, so that you will not be misunderstood.

To recall the operator on a connection, move the receiver hook up and down slowly three or four times.

Do not hang up the receiver until you are through with the connection, as this gives the operator a signal to disconnect you.

When your telephone is not in use, always keep the receiver on the hook; otherwise your line will be out of order.

Answer your calls promptly. Failure to do so keeps the calling party waiting and may result in the loss of a message.

In answering a call, say for example, "Mr. Jones speaking" or "Smith & Co., Jones speaking." This method of answering identifies you and saves time. It is desirable to answer calls in this manner both from business and residence telephones.

Because telephone numbers are subject to change, it is desirable merely to indicate on printed matter, signs, etc., that you have Bell telephone connection instead of using the number.

LONG DISTANCE SERVICE

To make a long distance call, ask the operator for "Long Distance." When "Long Distance" answers, give her your name and telephone number and the details of the call, including the number of the desired telephone, if you know it. "Long Distance" will acknowledge your call and if the distant town can be reached promptly you will be asked to hold the line. If not, you will be informed that you will be called by the operator. Then hang up the receiver.

Different rates apply for the different classes of long distance calls. Information regarding the various classes and how each class can be used to the best advantage follows:

A Station-to-Station Call should be made when you will talk to anyone answering the telephone called, or when you feel that the person with whom you wish to talk, can be promptly summoned to the telephone by the person answering. An example of the proper way to place a station-to-station call is, to say to the operator. "I want to talk to anyone at John Smith's telephone at Redmond, Iowa." (Give the telephone number, if known, or the street address.)

Rates for stationate station calls are lower.

Rates for station-to-station calls are lower han for the other classes of long distance service because less operator's labor and less use of the long distance lines and equipment are required to complete them.

Evening Rates apply on station-to-station calls from 7:00 to 8:30 P. M. during which time the charges are about 25% less than the lay station-to-station rate. This reduction applies in 19 when the day rate is 40c or more. The minimum reduced rate is 35c.

Night Rates are in effect on station-to-station calls from 8:30 P. M. to 4:30 A. M. during which time the charges are about one-half the day station-to-station rate. This reduction applies only when the day rate is 40c or more. The minimum reduced rate is 35c.

A Person-to-Person Cail should be made when you wish to talk with a specified person. An example allet the proper way to place a person-to-person call is to say to the operator. If want to talk with John Smith at medmond lows. (Give telephone number if known or the street address.) The rate for this class of service is somewhat higher than for station-to-station calls. It requires more operator's labor and a

greater use of the long distance lines and equipment to locate a specified person and summon him to the telephone.

An Appointment Call is made when you arrange to talk with a specified person at a designated time. The rate for this class of service is about one-fifth nigher than for a person-to-person call because of the additional work on the part of operators and use of long distance lines and equipment required to make an appointment with the called person first and then have him on the line to talk at the specified time.

Messenger Calls—When it is necessary to send a messenger to summon the person called to a telephone, it is a messenger call. The rate for this class of call is about one-fith higher than for a person-to-person call plus the messenger charges because of the additional operator's labor and use of long distance lines and equipment required to complete a call of this kind.

Reversal of Charges—Charges may be reversed on all classes of long distance calls at any time without extra cost except station-to-station calls on which the rate is 20c or less, which take a slightly higher rate when sent collect.

Report Charge—A report charge is made on un-completed person-to-person messenger and appoint-ment calls when failure to establish the connection is due to no fault of the telephone company. A report charge is also made on reversed station-to-station calls when the party answering at the called telephone re-fuses to accept the charge and as a result the call is not completed.

not completed.

The report charge is about one-fourth of the station-to-station day rate. This charge is made to cover a part of the expense of the operators' time and the use of long distance lines and equipment in an effort to complete the call.

To obtain rates to any place, call "Long Distance."

If you want to know the charges on a call at the close of your conversation, notify the long distance operator when you place the call.

Our Managar is anxious to give further information regarding our long distance service. Please feel free to call upon him.

to call upon him.

Orders received on or before the above date can usually be completed in time for the next issue of the directory, but it is desirable that orders for changes be received as much in advance of this date as is possible.

The Ames Chamber of Commerce

SHELDON-MUNN HOTEL BUILDING Phone 63

The Chamber of Commerce is not a legally established part of the city government, yet every live city has one. That is because every live city has unselfish, progressive and ambitious people in it. They just can't help observing that there are many things to be aone which it is nobody's business to do. They want their city to grow, to have a well-balanced community life and to have it lay hold of whatever opportunities it has and develop them.

Once established, the Chamber of Commerce assumes to concern itself with whatever will promote the health, happiness, prosperity and development of the community. Too many people take it as a matter of course, like the sunshine and weather, completely overlooking its origin and its purpose. They accept its good offices and acknowledge its importance but feel no responsibility for its support or its success.

In traveling through the country and the towns along the way it is generally easy to discern which communities maintain live organizations for community service. The very appearance of things proclaims to the world that the people who live there "care." And who wants to pitch his tent in a place where the people don't care? It is those who care who get together and work together for the common good.

The spirit of the community counts for more than its material resources as an inducement to good people to come and make it their home. Ames has much to commend it along this line. Among the cities of its class it compares very favorably. The Chamber of Commerce wants it to get more and more of the spirit that invites more and more good people to come and live in it. It wants every one of its citizens to feel that it is the very best city in the world and be able to prove it against every challenge.

CO-OPERATION WITH THE CHAMBER OF COMMERCE IS THE BEST WAY OF SHOWING YOUR FAITH IN AND LOYALTY TO THE CITY YOU CALL HOME.

Hot Water

Heating water used to be a ceremony. Now-a-days people have a Sands Gas Water Heater installed and have any amount of hot water right at the faucet. The

will provide hot water for bath, lavatory, kitchen and laundry; for the sick room day or night, cheaper than you could heat it on the range or coal stove.

It is really remarkable the comfort and convenience you can get for such a small investment.

Whatever the Emergency Telephone Service Must Not Fail

Long before the flood waters recede, the telephone men hasten to repair the crippled wires.

Regardless of their personal safety they may need to cross the swollen stream in order that the telephone will respond to your command.

Mile after mile of telephone poles and wires may be torn down by sleet storms.

Tornadoes may snap off poles like so many matches.

But whatever the emergency, hardy telephone men get on the job without delay.

When your telephone is out of order you can rest assured that somewhere telephone men are at work bending every effort in order that service may be restored at the earliest possible moment.
